NOTES: The commodities shaded in gray are the staples most often consumed by the poorest of the poor in the market areas indicated. Additional commodities provided are important commodities consumed in the same areas. Final and official monthly average prices are used. The symbols (▶▼) depict the direction of price changes: the red upward-facing arrow denotes an increase of 5 percent or greater, the blue horizontal arrow denotes no change or changes that are smaller than 5 percent, and the green downward-facing arrow denotes price decreases that are 5 percent or greater. The three arrows respectively correspond to the percent change in prices this month compared to last month, last year, and two years ago. The “-” symbol indicates that no data are available. An asterisk (*) next to a commodity means that the price given is a wholesale price. Otherwise, all reported prices are retail.
